The Anti-SKINflammation Method

Programme Terms & Conditions

Last updated: 10 November 2026

These Terms & Conditions apply to participation in **The Anti-SKINflammation Method**, including the Core programme and The Anti-SKINflammation Method Inner Circle.

The programme is provided by:

Szilvia Molnar, trading as Szilvia Molnar Nutrition & Lifestyle
Horgen, Switzerland
support@szilviamolnarnutrition.com

Full business contact details are available on the Szilvia Molnar Nutrition & Lifestyle website.

By purchasing or enrolling in the programme, you agree to these Terms & Conditions.

1. The programme

The Anti-SKINflammation Method is a 12-week guided nutrition and lifestyle programme for adult women living with persistent eczema.

The programme combines educational course content, practical resources, group support and, depending on the option purchased, individual nutritional therapy support.

The exact programme features, bonuses and services included in your purchase are those described in the applicable sales, offer or checkout information at the time you enrol.

2. Eligibility

You must be an adult woman aged **18 years or older** to participate.

The programme and associated services are not available to clients resident in the **United States or Canada**.

By purchasing the programme, you confirm that:

- you are at least 18 years old;
- you have provided accurate information during enrolment;

- you are not resident in the United States or Canada; and
- you meet any additional eligibility requirements stated during enrolment.

If you temporarily travel to or stay in the United States or Canada during the programme, you must contact Szilvia Molnar Nutrition & Lifestyle before receiving live or individually personalised services while you are there.

Szilvia Molnar Nutrition & Lifestyle reserves the right to refuse or discontinue participation where providing services would fall outside professional scope, insurance cover, legal requirements or reasonable professional or safety considerations.

Inner Circle participation may be subject to application and acceptance. Submission of an application does not itself guarantee an Inner Circle place.

3. Core programme

The Core programme includes:

- the complete 12-week Anti-SKINflammation Method;
- programme lessons and educational materials;
- practical action tasks, guides, checklists and resources;
- live group coaching and Q&A sessions during the 12-week guided period, as specified in the applicable offer;
- weekly accountability check-ins during the 12-week guided programme period;
- access to the private programme community during the 12-week guided period; and
- lifetime access to the programme educational course materials, as described in Section 5.

Core does not include individual health assessment, private nutritional therapy consultations, individual case review, private messaging or a personalised Anti-SKINflammation Strategy.

4. Inner Circle

The Anti-SKINflammation Method Inner Circle includes the complete educational programme together with personalised nutritional therapy and coaching support.

Inner Circle currently includes:

- a comprehensive health, nutrition, eczema and lifestyle intake assessment;
- one 90-minute initial private consultation;
- a Personal Anti-SKINflammation Strategy tailored to your individual needs and circumstances;
- three 45-minute private progress consultations, normally around Weeks 3, 6 and 9;
- one 60-minute final consultation;

- a Personal Anti-SKINflammation Maintenance Strategy;
- weekly personalised check-ins and feedback;
- secure private messaging through Practice Better, Monday to Friday, during the 12-week coaching period;
- individualised adjustments to nutrition and lifestyle recommendations where appropriate;
- review and interpretation of relevant laboratory results within my professional scope, where testing is undertaken;
- lifetime access to the educational course materials, as described in Section 5; and
- access to the private programme community during the 12-week coaching period.

Live group coaching sessions are included in Inner Circle only where expressly stated in the applicable offer at the time of enrolment.

Laboratory testing fees and other third-party costs are charged separately, as described in Section 20.

Private messaging is normally answered within **two business days**, excluding Swiss public holidays.

Private messaging is intended for questions, clarification, observations and implementation support. It is not an emergency service, medical helpline, crisis service or continuous/on-demand consultation service.

The five private consultations included in the initial Inner Circle programme must be used during the 12-week coaching period unless otherwise agreed in writing. Unused consultations expire at the end of that period. Additional consultations provided under the complimentary 4-week support extension are subject to Section 11A.

Participants are responsible for completing requested intake information by the deadline communicated during onboarding. Failure to provide required information on time may delay individualised support and does not automatically extend the programme period.

5. Programme start and access

Programme start

The guided 12-week Core programme begins on the published cohort start date.

The 12-week Inner Circle coaching period begins on an individually agreed start date, confirmed in writing during enrolment or onboarding.

Lifetime course access

Both Core and Inner Circle participants receive lifetime access to the Anti-SKINflammation Method educational course materials from the date access is granted.

Lifetime access means continued access to the educational course and materials for as long as the Anti-SKINflammation Method online course is maintained and made available by Szilvia Molnar Nutrition & Lifestyle.

Szilvia Molnar Nutrition & Lifestyle reserves the right to discontinue the online course for legitimate business or operational reasons. Where reasonably practicable, participants will be given advance notice of discontinuation.

Lifetime course access does not itself include private consultations, individual coaching, personalised check-ins, private messaging, live group sessions, community access or other ongoing support. These services are provided during the applicable 12-week programme period, except where a complimentary support extension is approved under Section 11A or otherwise expressly agreed.

General access provisions

Depending on the offer purchased, some or all programme content, introductory materials, onboarding resources or bonuses may be made available before the programme start date or shortly after purchase.

Early access does not shorten the applicable 12-week guided or coaching period.

The precise timing and manner in which programme access is provided will be communicated in the applicable offer and enrolment information.

Where private programme community access is included in the purchased offer, access lasts for the applicable 12-week guided or coaching period, unless extended under Section 11A or otherwise expressly agreed.

Except for the complimentary 4-week support extension described in Section 11A, any extension, alumni programme, community extension or ongoing support offered after the programme is a separate service and is not included unless expressly stated.

6. Group coaching

Live group coaching and Q&A sessions are included only where expressly stated in the purchased offer at the time of enrolment.

Where included, sessions will be provided during the applicable 12-week programme period. The frequency, scheduling and format of these sessions may vary depending on the offer purchased and will be communicated in the applicable offer or enrolment information.

These sessions are intended to help participants apply the programme, ask questions and work through areas requiring clarification.

No minimum or maximum duration is guaranteed for an individual group session. Session length may vary depending on the number and nature of questions, the needs of the group and what is reasonably appropriate for that session.

Questions must fall within the scope of the programme and my professional practice.

I may decline to answer a question that:

- requires medical diagnosis or treatment;
- falls outside my professional competence or scope;
- cannot responsibly be answered without individual assessment;
- concerns medication prescribing or adjustment; or
- is inappropriate to discuss in a group environment.

Because participants may discuss personal or health-related information, group sessions are not routinely recorded.

If you cannot attend a scheduled group session, no individual replacement session or refund is provided.

7. Programme fees

The applicable price is the price displayed on the sales or checkout page at the time of purchase.

Payment may be offered:

- in full; or
- through an agreed instalment plan.

Where an instalment plan is selected, you are purchasing **one programme and paying the total purchase price in instalments**.

The payment plan is not a month-to-month membership or subscription that may simply be cancelled because you stop participating or change your mind.

All consumer prices shown are the total price payable and include any Swiss VAT or other mandatory charges that are legally applicable at the time of purchase.

8. Failed instalment payments

Each instalment must be paid on the agreed due date.

If a payment fails, you will have **7 days from the payment due date** to bring the account up to date.

If payment remains outstanding after that period, Szilvia Molnar Nutrition & Lifestyle may suspend access to:

- programme materials;
- group coaching;
- the private community;
- private consultations;
- private messaging; and
- other programme services.

If payment remains unpaid, programme access may be terminated.

Suspension or termination for non-payment does not convert the payment plan into a cancellable monthly subscription and does not automatically waive amounts already legally due.

9. Voluntary refunds

Unless an applicable offer expressly states otherwise, **Szilvia Molnar Nutrition & Lifestyle does not provide an additional voluntary change-of-mind, satisfaction or money-back guarantee.**

Changing your mind, deciding not to participate, failing to complete the programme, not using the materials, missing sessions or deciding that you no longer wish to continue does not in itself entitle you to a refund.

Statutory withdrawal rights for UK and EEA consumers: Where applicable under UK or EEA consumer law, consumers may have a statutory right to withdraw from a qualifying distance contract within 14 calendar days from conclusion of the contract. To exercise an applicable withdrawal right, please contact support@szilviamolnarnutrition.com before the expiry of the relevant period.

10. Inner Circle appointment policy

Private Inner Circle consultations may be rescheduled without charge where at least **48 hours' notice** is provided.

A consultation cancelled with less than 48 hours' notice or missed without notice will normally be treated as used.

I may, at my discretion, agree to reschedule a late cancellation or missed appointment where circumstances reasonably justify doing so.

An exception made on one occasion does not create an entitlement to an exception on another occasion.

If I need to reschedule a consultation, an alternative appointment will be offered.

11. Weekly check-ins

Weekly check-ins form part of both Core and Inner Circle during the applicable 12-week programme period.

Participants are responsible for completing and submitting their weekly check-ins within the requested timeframe.

For Core participants, weekly check-ins are intended to support accountability, encourage participation and track engagement with the programme. They do not include individual health assessment, personalised nutritional therapy, individual case review or personalised feedback.

For Inner Circle participants, submitted weekly check-ins will be reviewed and individualised feedback provided as reasonably appropriate during the 12-week coaching period.

If you do not submit a check-in, I am not required to provide a replacement consultation, additional written feedback, substitute service or automatic extension of support.

Submission of weekly check-ins is also an eligibility requirement for the complimentary 4-week support extension described in Section 11A.

11A. Complimentary 4-Week Support Extension Guarantee

The Anti-SKINflammation Method offers a conditional complimentary 4-week support extension to eligible Core and Inner Circle participants who have actively participated in their programme, made genuine efforts to implement the recommended actions and continue to require additional guidance at the end of the initial 12-week programme period.

The extension is intended to provide additional support with implementing and consolidating programme recommendations. It does not guarantee any particular improvement in eczema symptoms or other health outcomes.

Eligibility — Core

To qualify for the complimentary extension, Core participants must have:

- attended at least two-thirds of the live group coaching sessions held during their 12-week programme period, rounded up to the nearest whole session;
- completed and submitted at least 9 of the 12 weekly accountability check-ins;
- made genuine efforts to complete the educational programme and implement its practical action tasks; and
- continued to experience difficulties or require additional guidance in applying the programme at the end of the 12 weeks.

Eligibility — Inner Circle

To qualify for the complimentary extension, Inner Circle participants must have:

- attended at least 4 of the 5 scheduled private consultations, including any consultations properly rescheduled in accordance with Section 10;
- completed and submitted at least 9 of the 12 weekly personalised check-ins;
- made genuine efforts to implement their personalised nutrition and lifestyle strategy and relevant programme activities; and
- continued to experience difficulties or require additional support in implementing their personalised strategy at the end of the 12 weeks.

Consultations missed through late cancellation or non-attendance are not counted as attended. Participants will not be penalised for consultations or group coaching sessions cancelled by Szilvia Molnar Nutrition & Lifestyle.

Eligibility will be assessed reasonably and in good faith, taking into account individual circumstances, including illness or other exceptional situations.

What the extension includes — Core

Eligible Core participants receive, at no additional charge:

- four additional weeks of access to the private programme community;
- continued access to weekly accountability check-ins during the extension period; and
- two additional live group coaching and Q&A sessions during the four-week extension period.

The extension does not include private consultations, personalised nutritional therapy, individual case reviews or private messaging.

What the extension includes — Inner Circle

Eligible Inner Circle participants receive, at no additional charge:

- four additional weeks of personalised coaching support;
- two additional 30-minute private consultations focused on reviewing progress, addressing remaining challenges, refining the Personal Anti-SKINflammation Maintenance Strategy and establishing future priorities;
- continued weekly personalised check-ins and individualised feedback;
- continued secure private messaging through Practice Better, Monday to Friday, subject to the response times and messaging boundaries described in Section 4; and
- continued access to the private programme community.

The two additional private consultations must take place during the four-week extension period unless otherwise agreed in writing.

Requesting the extension

Participants wishing to request the extension must contact Szilvia Molnar Nutrition & Lifestyle at support@szilviamolnarnutrition.com within 14 calendar days after the end of their initial 12-week programme period.

The request should briefly explain the areas in which further support is needed and the actions the participant has taken during the programme.

Eligibility will be reviewed against the criteria described above and confirmed in writing. Where approved, the start date and arrangements for the four-week extension will be communicated to the participant.

The complimentary extension is available once per programme enrolment. It cannot be transferred to another person or exchanged for cash, a refund or credit.

The extension does not create an entitlement to further support beyond the additional four weeks.

Nothing in this provision limits or excludes any applicable statutory consumer rights.

12. Community conduct and confidentiality

The private community and live group sessions are intended to provide a respectful and supportive environment.

You agree not to:

- harass, threaten, abuse or intimidate another participant;
- publish or share another participant's personal or health information;
- take or distribute screenshots, recordings or copies of private group discussions without permission;
- record live group or private sessions without express permission;
- use the community to solicit clients or promote unrelated products or services;
- send unsolicited commercial or promotional messages to other participants;
- share your programme username, login or password with another person;
- allow another person to access programme materials through your account; or
- otherwise seriously interfere with the programme or another participant's experience.

You are expected to treat personal information shared by other participants as confidential.

While Szilvia Molnar Nutrition & Lifestyle requires participants to respect one another's privacy and confidentiality, I cannot control or guarantee the behaviour of every participant.

Serious or repeated breaches may result in removal from the community or programme.

13. Professional status and scope

The programme is provided by **Szilvia Molnar, BSc (Hons) Nutritional Therapy, a UK-qualified Nutritional Therapist working within complementary nutrition and lifestyle practice**.

The programme provides nutrition and lifestyle education, guidance and support. Inner Circle additionally provides personalised nutritional therapy within my professional scope.

I am not acting as your doctor, dermatologist or other regulated medical practitioner.

The programme does not provide and should not be relied upon as a substitute for:

- medical diagnosis;
- medical treatment;
- prescription of medication;
- emergency medical care; or
- individual medical advice from an appropriately qualified healthcare professional.

Participation in the programme does not create a doctor-patient relationship.

14. Eczema and medical care

Eczema is a medical condition.

The Anti-SKINflammation Method is intended to support nutrition, lifestyle, general wellbeing and skin health **alongside appropriate medical care**.

It is not a replacement for medical or dermatological treatment.

I do not prescribe medication and will not instruct you to stop, reduce, increase, substitute or otherwise alter prescribed medication.

You must not stop or alter prescribed medication solely on the basis of information obtained through the programme without consulting the healthcare professional responsible for that treatment.

If you have been prescribed medication or medical treatment, you remain responsible for following the advice and instructions of the clinician responsible for your care unless that clinician advises otherwise.

You should keep your doctor or other appropriate healthcare professional informed of significant changes to your diet, supplement use or lifestyle where those changes may be relevant to your medical condition, treatment or medication.

15. Your responsibility for medical care

By participating, you acknowledge that responsibility for obtaining appropriate medical advice, diagnosis and treatment remains with you.

You should seek advice from your doctor or another appropriately qualified healthcare professional before making significant dietary, supplement or lifestyle changes where this is appropriate for your circumstances, particularly if you:

- have an existing medical condition;
- take prescription medication;
- have diagnosed food allergies;
- are pregnant, breastfeeding or trying to conceive;
- have a history of an eating disorder or significant dietary restriction;
- are underweight or at nutritional risk; or
- have another health condition requiring medical or dietary supervision.

The programme is not intended for medical emergencies or urgent health concerns.

You are responsible for seeking prompt or emergency medical attention where symptoms are severe, unusual, rapidly worsening or otherwise require medical assessment.

The programme must not be used to delay or avoid necessary medical care.

16. Food allergies

Programme discussions about food elimination, reintroduction or experimentation are not instructions to deliberately expose yourself to a known or suspected serious allergen.

If you have a diagnosed food allergy, a history of significant allergic reactions or have been advised by a healthcare professional to avoid a particular food, you should not reintroduce or challenge that food without appropriate medical advice and supervision.

17. Voluntary participation and personal responsibility

Participation in the programme and decisions about whether and how to implement programme information are voluntary.

You remain responsible for your choices, actions and health decisions.

You are not required to implement a recommendation merely because it appears in the programme.

If a recommendation does not appear appropriate for your circumstances, if you experience an adverse reaction or if you have concerns about your health, you should stop the relevant change where appropriate and seek suitable professional or medical advice.

18. Accuracy and disclosure of information

For personalised Inner Circle support, you are responsible for providing accurate, complete and up-to-date information to the best of your knowledge.

This includes relevant information concerning:

- diagnosed medical conditions;
- symptoms;
- allergies;
- medication;
- supplements;
- pregnancy or breastfeeding;
- significant dietary restrictions;
- previous adverse reactions; and
- material changes in your health.

Personalised recommendations can only be based on the information available to me.

You are responsible for informing me if relevant information changes during the programme.

To the extent permitted by law, Szilvia Molnar Nutrition & Lifestyle is not responsible for consequences arising from information that a participant knowingly or materially withholds, misrepresents or fails to update.

19. Group information and individual suitability

Core programme education and group coaching are provided without the comprehensive individual assessment included in Inner Circle.

Information or discussion concerning a food, supplement, symptom, lifestyle strategy, research finding or other health-related topic in a group environment does **not** mean that the information is individually appropriate or medically suitable for every participant.

Where a question requires individual assessment, medical diagnosis or treatment, or falls outside my professional scope, I may decline to answer it and recommend that you obtain appropriate individual or medical advice.

20. Tests, supplements and third-party products

Laboratory testing, supplements, medications, medical consultations and other third-party products or services are **not included in the programme fee** unless expressly stated otherwise.

Where testing or supplements are discussed or recommended within the scope of the programme, you remain responsible for deciding whether to purchase or use them and for any associated costs.

No supplement is automatically appropriate for every participant.

You are responsible for informing relevant healthcare professionals about supplements you use and for checking potential interactions, contraindications or other safety considerations where appropriate, particularly if you use prescription medication or have an existing health condition.

Where appropriate, you may be advised to discuss a test, supplement, dietary change or other issue with your doctor or another qualified healthcare professional.

Third-party laboratories, supplement manufacturers, pharmacies, practitioners and other external providers remain responsible for their own products and services.

Where functional laboratory testing is recommended and undertaken as part of Inner Circle, review and interpretation of relevant test results within my professional scope, together with appropriate integration of those findings into your personalised nutrition and lifestyle strategy, are included in the programme fee. Participants are responsible for laboratory charges at the laboratory provider's applicable rates. Any findings requiring medical diagnosis or treatment will be referred to an appropriately qualified healthcare professional.

21. No guarantee of health outcomes

Eczema is complex and individual, and outcomes vary between participants.

Participation in the Anti-SKINflammation Method does not guarantee:

- cure or permanent remission of eczema;
- clear or perfect skin;
- freedom from eczema flares;
- a particular improvement in symptoms;
- a particular physical or medical outcome;
- that any particular dietary or lifestyle strategy will be effective for you; or
- the same results experienced by another participant or by me personally.

Testimonials, examples, case studies and descriptions of my own experience are not guarantees that you will experience the same or similar results.

The programme is designed to provide a structured, evidence-informed approach to nutrition and lifestyle and to help you develop a clearer strategy for supporting your health, wellbeing and skin.

Your results depend on numerous individual factors including your health, circumstances, participation, implementation and factors outside either party's control.

22. Liability

I will provide the programme and any individual services with reasonable professional care.

To the fullest extent permitted by applicable law, Szilvia Molnar and Szilvia Molnar Nutrition & Lifestyle shall have no liability for any loss, injury, adverse effect, cost, claim or damage arising out of or in connection with a participant's participation in the programme, use of programme information, or implementation of nutritional, dietary, supplement or lifestyle information or recommendations, except to the extent that such liability cannot lawfully be excluded or limited.

Without limiting the above, to the fullest extent permitted by applicable law, Szilvia Molnar and Szilvia Molnar Nutrition & Lifestyle shall not be responsible for consequences arising from:

- inaccurate, incomplete, misleading or withheld information provided by a participant;
- failure to disclose relevant medical conditions, medication, supplements, allergies or other information relevant to the participant's health;
- a participant's decision to stop, reduce, increase, replace or otherwise alter prescribed medical treatment without appropriate medical supervision;
- failure to seek appropriate medical attention or follow appropriate medical advice;
- implementation of programme information or recommendations despite a known contraindication, diagnosed allergy or contrary medical advice;
- use of programme information or recommendations outside the context in which they were provided or in a manner materially different from how they were intended to be used;
- dietary, supplement, medication, lifestyle or other health-related changes independently undertaken by a participant and not recommended through the programme;
- products, laboratory testing, practitioners or other goods or services supplied by third parties;
- the conduct of another programme participant;
- temporary interruption, outage, technical failure or unavailability of third-party platforms or services outside my reasonable control; or
- use of programme content, recommendations or materials by a person for whom they were not intended.

To the fullest extent permitted by applicable law, liability for indirect, consequential or purely economic loss, or for loss that was not reasonably foreseeable, is excluded.

Where applicable law does not permit liability to be fully excluded but permits it to be limited, liability shall be limited to the maximum extent permitted by that law.

Nothing in these Terms excludes or limits any liability that applicable law does not permit to be excluded or limited.

23. Intellectual property

All programme videos, written materials, worksheets, guides, graphics, frameworks, prompts, recordings and other original programme content remain the intellectual property of Szilvia Molnar Nutrition & Lifestyle or the relevant rights holder.

Your purchase gives you a limited, personal and non-transferable licence to use programme materials for your own private use.

You may not, without prior written permission:

- share your login;
- reproduce or distribute programme materials;
- upload programme content elsewhere;
- sell or sublicense programme materials;
- use programme materials to train or provide services commercially to others;
- record live programme sessions;
- copy substantial portions of the programme into another course, product or commercial service; or
- otherwise commercially exploit programme content.

Downloading or printing materials where that functionality is provided is permitted for personal use only.

Where your purchase is cancelled and refunded, your licence to use the programme materials ends.

24. Reasonable programme changes

The programme will be delivered substantially as described at the time of purchase.

However, I may make reasonable changes where necessary, including changes to:

- lesson order;
- programme resources;
- group session dates or times;
- online platforms;
- technical delivery arrangements;

- supporting materials; or
- other operational elements.

Such changes will not materially reduce the overall nature or value of the programme.

The fact that a programme element has been updated, replaced, reorganised or delivered through a different reasonable platform does not itself create an entitlement to a refund.

25. Third-party platforms and technology

The programme is delivered through third-party online services and may include course-hosting software, Practice Better, Facebook, email, payment providers, video-conferencing services or other reasonably required platforms.

You are responsible for having:

- suitable internet access;
- a compatible device;
- a working email address; and
- the ability and willingness to create and maintain accounts on platforms reasonably required for programme participation.

Platforms may be replaced with comparable services where reasonably necessary.

Collection and processing of personal information through these services is addressed separately in the **Privacy Policy**.

26. Programme interruption, postponement or cancellation

If illness, emergency, serious technical failure or another circumstance outside my reasonable control temporarily prevents delivery of a scheduled programme element, I may reschedule the affected element or provide a reasonable alternative.

Where appropriate, the programme period may be extended to accommodate a material interruption.

If I permanently cancel a cohort or become unable to provide a material part of the programme and no reasonable replacement can be provided, participants will be offered an appropriate transfer, credit or refund relating to the affected undelivered service.

27. Suspension or termination for misconduct

I may suspend or terminate programme access where a participant:

- seriously or repeatedly breaches these Terms;
- shares programme materials or login details without permission;
- behaves abusively towards me, contractors or other participants;
- seriously breaches another participant's privacy or confidentiality;
- uses the programme or community unlawfully; or
- fails to pay amounts due.

Where reasonably appropriate, I will normally give the participant an opportunity to correct the issue first.

A participant removed because of serious or repeated breach is not entitled to a refund solely because access has been terminated for that breach.

28. Bonuses

Any bonus materials, tools, resources or additional services form part of your purchase only where they are expressly included in the offer applicable at the time you purchase.

Any specific access period or other condition stated for a bonus applies to that bonus.

Bonuses may vary between enrolment periods.

You are not entitled to bonuses subsequently offered to another intake, promotion or customer.

29. Privacy

Personal information is processed in accordance with the **Szilvia Molnar Nutrition & Lifestyle Privacy Policy**.

Because Inner Circle involves personalised nutritional support, information processed may include health-related and other sensitive personal information.

The Privacy Policy separately explains how personal information is collected, used, stored, shared, retained and otherwise processed.

30. Complaints

If you are unhappy with any aspect of the programme, please contact:

support@szilviamolnarnutrition.com

so that I have an opportunity to address the issue.

I will aim to respond within a reasonable period.

31. Governing law and jurisdiction

These Terms and the contractual relationship between you and Szilvia Molnar Nutrition & Lifestyle are governed by **Swiss law**.

Where legally permitted, the place of jurisdiction is **Horgen, Canton Zurich, Switzerland**.

32. Entire agreement

These Terms, together with:

- the applicable sales, offer or checkout information;
- any offer-specific terms expressly provided at purchase;
- the Privacy Policy; and
- any written Inner Circle-specific agreement or onboarding terms where applicable,

form the agreement governing your purchase and participation.

If an offer-specific term expressly differs from these general Terms, the offer-specific term applies to that issue.

33. Severability

If any provision of these Terms is found to be invalid or unenforceable, this does not invalidate the remaining provisions.

The remaining provisions continue to apply.

34. Changes to these Terms

The version of these Terms applicable to your purchase is the version in force when you enrol.

I may update these Terms for future purchases and enrolments.

A later change will not materially alter the terms of an existing purchase unless the change is reasonably necessary for legal, regulatory, security, safety or operational reasons.

Model cancellation notice for UK/EEA consumers

If you have a statutory right to cancel and wish to exercise it, you may email:

support@szilviamolnarnutrition.com

You may use the following wording:

> **To Szilvia Molnar Nutrition & Lifestyle:**
> I hereby give notice that I wish to cancel my purchase of The Anti-SKINflammation Method / The Anti-SKINflammation Method Inner Circle.
>
> Name:
> Email used for purchase:
> Date of purchase:
> Date:
